

# Compass Dispensary Revenue Assurance

- Are you confident you are being reimbursed for all your Dispensed and PA Items?
- Do you have a process that alerts you to errors in your claims and payments?
- Would you like to recover income for missed PAI drugs claims?

## PCSE Drugs Payments are at risk

Reconciling the PPA income received via PCSE with the FP34 claims is complex. Payment issues are common, but many go un-detected.

Drugs (Dispensing)		Total: £72,849.79	
Paycode	Description	Source	£
DRGD	Dispensing GPs - Cost of Drugs	CCG	£59,057.08
DRGDPF	Dispensing GPs - Professional Fees	CCG	£15,428.96

PCSE report contains only limited information. Dispensary profits are impacted, but it is difficult to know where to make improvements.

## Compass Dispensary Revenue Assurance

The online Compass platform reconciles the practice's FP34 claims with data on items processed and paid by PCSE. Ash Lane provides a monthly 'Revenue Assurance' report to confirm successful payment, or flag if issues have occurred and what action is needed to resolve them.

Training and support is provided to improve claims performance, and management information provides focus on where profits can be increased.

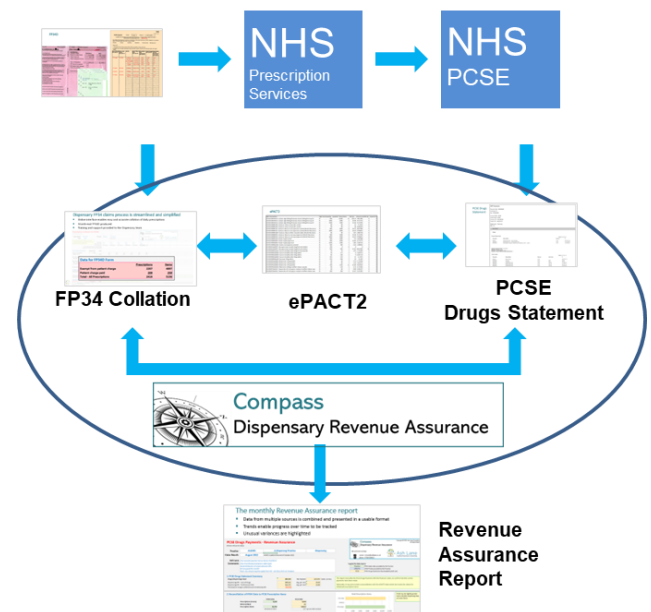

## Support from our expert team

We provide training and support to answer queries, and provide help if errors are discovered.

"Every practice in the country should have this service"

*Ed Kennedy, Managing Partner, Wickham Surgery and IGPM National Dispensing Lead*

Claimed      Processed      Paid

## Recovering missed PAI income

Ash Lane will review the practice's historic claims and recover missed income. To-date, we have recovered over £2m for Compass practices.

## Fees

- Monthly Service Fee, based on Drugs income
- No minimum term
- No up-front cost
- Back-claim % 'Success Fee' of the value recovered

## Contact

Contact Richard for a no-obligation consultation and demonstration of the Compass platform.
